

Lake Handicap 2020

This year's winner of our virtual series is George Kujawinski.

As with just about everything in 2020, our Lake Handicap series was a bit different. Instead of holding three handicap races around the lake, we set three weeks in May, July and September when runners could record their time around the lake and provide a GPS trail to verify their time.

Please note that times set in virtual races do not count for records purposes.
